

## **Baggs Road Landfill – Site Liaison Committee**

The North Renfrew Landfill Operations Board (NRLOB) is actively looking for community members from both the Town of Deep River and Laurentian Hills to sit on the Site Liaison Committee (SLC) for the Baggs Road Landfill site.

The landfill is a critical resource that we need to preserve for the future of our communities. We need to work together to reduce waste, divert material and educate the public so that we can extend the life of the landfill and make it last as long as possible.

The SLC acts as a liaison between residents, businesses, the Ministry of Environment, Climate Control and NRLOB. Volunteer members are appointed for a 1-year term with the objective to promote waste diversion from the landfill and provide recommendations to the board for improvements in the operation and monitoring of the landfill.

If you are committed to reducing waste and want to make a positive impact on protecting our environment and would like more information or think this is something that you may be interested in pursuing, please send an email and your contact information to [info@laurentianhills.ca](mailto:info@laurentianhills.ca)
