Planning on Building? Permit Required?

Any new building over 100 ft ² (10 x 10) including garages, decks, and porches requires a permit. If a building is less than 100 ft ² (10 x 10) it must still meet the zoning and all setback requirements for the property. This includes any addition to an existing building including porches or deck as well as any extensive renovations that would include structural alterations or demolition of any building, all sewage systems, partitioning and finishing a basement, damp proofing or waterproofing foundation walls, including installation of drainage tile.
