

## OUTDOOR WATER RESTRICTION

### FOR ALL RESIDENTS/PROPERTIES CONNECTED TO THE CHALK RIVER WATER SYSTEM

Effective immediately and until further notification **all outdoor watering is restricted to one (1) hour a day between the hours of 7:00p.m. and 8:00p.m. as follows:**

**Even numbered** addresses shall be permitted to water between the hours 7:00p.m. and 8:00p.m. on even numbered days.

**Odd numbered** addresses shall be permitted to water between the hours 7:00p.m. and 8:00p.m. on odd numbered days.

Residents are also encouraged to discontinue non-essential water use such as vehicle washing.

The **WATER RESTRICTION** is being implemented to avoid water delivery challenges for essential purposes at times when production cannot meet high consumer demands.

The Town's By-Law No. 19-10 regulates measures beyond lawn watering restrictions, to assist in ensuring the availability of sufficient water reserves during peak use periods. These reserves are required for fire protection, emergency events, or operational issues that limit the ability to distribute water to consumers.

These measures are deemed necessary in order to ensure abundant flow of water for drinking, cooking, personal hygienic, medical and other essential uses.

Not adhering to the restriction is a fineable offence. To report an infraction or for additional information please call 613-584-3114.

Please note: The flushing of dead-end hydrants and annual hydrant flushing will continue as preventative maintenance of the system.
